## Proposal:

### "Environment Awareness- Day Long Bazaar"

## Objective:

- To create awareness and sensitivity among general public, students and other target groups about the importance of conservation of forests and its ecosystem, biodiversity to mitigate climate change.
- To enable behavioural change at the individual level and adopt measures for environment protection and conservation.
- To aware the students and other social groups to acquire sensitivity to the environment
- To encourage the students and other social groups to acquire knowledge of pollution and environmental degradation.
- To aware the surrounding people of the rapidly depleting natural resources and make them contribute to its conservation
- To make the surroundings cleaner and greener for the current as well as future generations
- To provide students and other social groups with an opportunity to be actively involved in environmental protection and to allow them to acquire a set of values for environmental protection.

## Scope and Background:

Increasing population and rapid urbanization have generated pressure on the natural resources and lead to release of Green House Gases (GHGs) and subsequently result in degradation of the environment. To prevent the environment from further degradation, the message of conservation needs to be spread among the public at large and adopt measures to mitigate the impacts of environmental degradation.

## Introduction:

The Environment Awareness Day long Bazaar will be day for community members-Young and old-to learn how they can be involved in environment contribution, volunteerism and making their community a better place to live.

The activities performed during the Exhibition on Best out of Waste in Day long Bazaar are:

1. Recycled Plastic items
2. Making of eco-friendly Divas and Rangoli

3. Art and craft eco-friendly items
4. Eco-friendly items with waste paper
5. Material recovery and recycling of waste tyres
6. Lecture cum Workshop on topics like Recycling, Energy & conservation and Zero Waste Sustainable future.
7. Ring Thing Game with use of sustainable items as things (Miniature of Green /Blue Dustbin/Jute Bags / Handmade Jewellery/ Recycled items)
8. Promote carbon footprints mitigation through plantation carfree Day and Solid and Plastic Waste Management.
9. Organized inter college poster / slogan making competition on harmful effects of plastic and its mitigation measures / conservation of energy & water / carbon footprint mitigation.
10. Inter College Quiz competition on the topics related to Environment Awareness.

The items prepared as per above are displayed in the stalls and the Bazaar will be open for the community for purchase of the **"Best of Waste"** items. Participants can use this knowledge to promote positive change in their local areas. These "Day Long Bazaar" exhibitions bring together environment activists, and community leaders to work on long-term solutions. These partnerships lead to projects that help reduce environmental harm in cities and countries. These sustainable living workshops in the "Day Long Bazaar", teach practical ways to reduce environmental impact. The workshops can cover topics like recycling, energy conservation and zero waste living and educate stakeholders (students and people) about sustainability. They provide hands-on experience and resource to participants. The attendees leave with actionable steps to live more eco-friendly lives. By working together, they help the planet become a better place for future generations. Besides this, the organising college will give first three prizes amounting Rs3000, Rs2000 and Rs1000 respectively. The process of supporting and hosting eco-product fairs or Bazaar's bring attention to sustainable goods. These events help people discover environmentally friendly items they can use every day. A shift in consumer choices creates lasting awareness. Consumers are more likely to adopt changes when they see viable option, highlighting the businesses that offer green alternatives. It brings attention to sustainable goods. Besides this, these events are used to encourage institute and people to have "No Plastic Day" and "Car free day" in the campus and in community to reduce their carbon footprint by choosing alternative options(jute bags, walking, cycling, or using public transport for the day). These events raise awareness about air pollution and sustainable pollution free future.

**"Day Long Bazaar" Environment awareness Bazaar will be vibrant celebrations of Sustainability that brought together the community in a unique and eco-friendly shopping experience..**
